To Whom It May Concern:

I was introduced to Mr. Raul Magallanes through a colleague a couple of years ago when I needed to update & renew my FCC licensing & I couldn't afford to continue paying my previous attorney their much higher fees.

Mr. Magallanes took immediate action in my cases (since I was late), and sent me his written quotation of what needed to be done & what it would cost to bring my licenses to date. He prepared his detailed quotation without any obligation. Mr. Magallanes' solution turned out to be a fraction of what I was being charged locally & he did a much better & more professional job than any other attorney I have worked with before.

Mr. Magallanes is a very professional individual but he is also a very personable person to work with. He takes my calls & answers my mails any time or day & is always helpful without any preconditions. I feel fortunate to count on his legal services & I always highly recommend him to others.

Yours truly,

Ricardo Cruz  
President
